

**Figure 1.** A schematic diagram illustrating the experimental design. The figure shows two parallel horizontal timelines representing the duration of the study. The top timeline is labeled "Participant 1" and the bottom timeline is labeled "Participant 2". Both timelines start at a point labeled "Baseline". Following baseline, there are three distinct phases indicated by brackets above the timelines: "Phase 1", "Phase 2", and "Phase 3". In Phase 1, both participants receive a treatment labeled "T1". In Phase 2, both participants receive a treatment labeled "T2". In Phase 3, both participants receive a treatment labeled "T3". Arrows indicate the progression from Phase 1 to Phase 2, and from Phase 2 to Phase 3. Below each timeline, there are several vertical tick marks representing measurement points. At the end of each timeline, there is a bracket labeled "Follow-up".
